#### Mona expands her repertoire

The list of Mona's talents is long. Now she is adding even more to the list.

Once the guest has booked, Mona sends an SMS with a link to the guest's smartphone. Here the guest can now fill out registration cards, prepay stays, check in or out, receive key codes, etc.

This gives the guest greater freedom, and reduces queues for check-in and out.

The guest also has the option of ordering or pre-ordering items that the hotel makes available for online sale. The guest can pay for the goods directly via their mobile phone or post them to their room. This makes the guest's mobile phone their own personal cash register, and increases the potential for additional sales for the hotel.
