Safe passwords

IT Safety is more important now than ever.
Therefore we have made a short video with things to consider when creating new passwords.

Watch the video here

Staff Training is key to your success!

Picasso Digital is an incredibly comprehensive system, so even though it is intuitive, before you start using it, you will need some information and training.

Fortunately, we have skilled teaching consultants with many years of experience in making hotel management and staff ready for a new and easier work day with Picasso Digital.

Our trainers have a strong hotel background and understand your business needs and speak your staff language, on site training is the best possible way to adapt Picasso Digital to your property!

Read more about training here

Quick and easy mobile ticket sale

Check out our new personal online shopping platform, for selling everything from event tickets to spa treatments, room service or pre-ordered meals in the restaurant to your guests on their own mobile phone.
The guest can pay online or post on the room

Read more about the Picasso Guest shopper

Obtain your guests' mobile number and email adresses

Easy and quick filling in of registration cards. The guests themselves fills in their details on arrival directly on your Mona touch screen..

Read more about Mona - Your digital assistant

With kind regards
