## Plenty of news in 11+

Picasso Digital is in constant development finely tuned to satisfy the needs of our customers in an ever changing hospitality industry.

We have recently released Picasso version 11+. We are happy to highlight the most recent features, that we are confident will not only save you time, but will make your role a whole lot easier.

## Selector:

- 1 New designed Selector with pin code login. Easy Password and pin code login system with auto change of Passwords. Here is an explanatory [video on Youtube](#).
- 2 Option to set up password that by default must be at least 13 characters long and consist of letters, numbers and special characters, and setting up a mandatory change of passwords every 90. days.

- 3 The staff password can be set up, so the employee's login is deactivated after a specified number of months after their last login to enhance security.
- 4 Option to block access after multiple incorrect login attempts.
- 5 Option to set up complex password check.
- 6 Login with pin code as an option following successful password entry.
- 7 Two factor login verification in Selector is now available.
- 8 Two new fields have been created in Picasso Mail, "Ref. no". and "Guest".

## Reception:

- 9 New Danish translation
- 10 At check out authorizations are cancelled.

**20** New method to to access the internet from Picasso Digital via clipboard.

**21** When booking a product including lunch, tables in the restaurant are booked automatically.

**22** In reservation search results you now see both booked and allocated room types.

**23** In the Arrival plan you can now sort by promotional codes.

**24** Item plan to parking shows now vacant parking spaces.

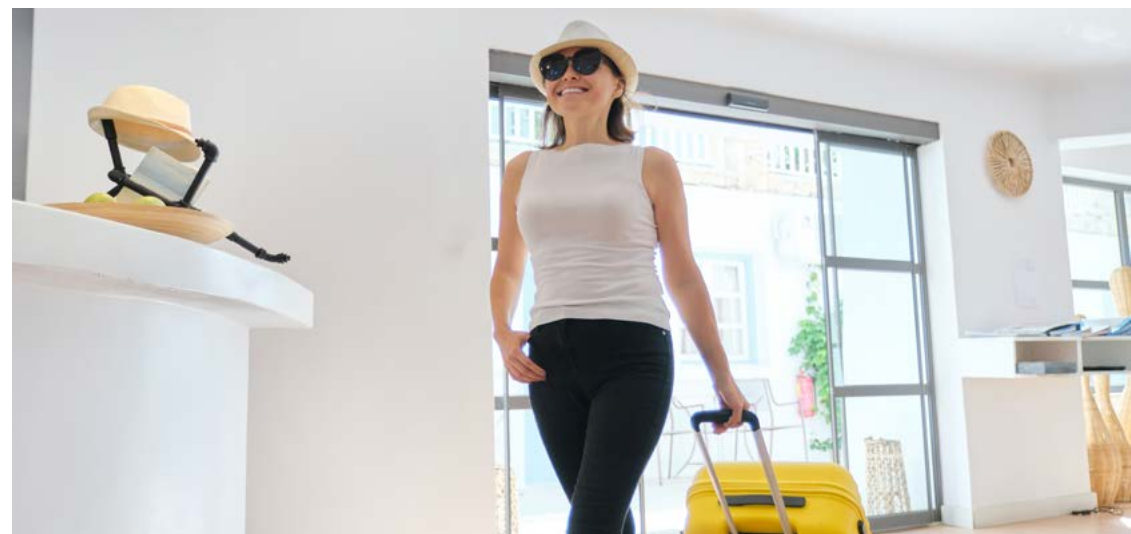

**25** Send automatic welcome email x number days before arrival and a departure email x number of days after departure. The email can include hyperlink eg. to prepayment.

**26** If you have Thesa or Flex control key system the guest is able to save their door code in Marketing and always use this doorcode no matter what room number they have in the future.

**27** Longstay plan: See vacant rooms 2 years ahead.

**28** New column to table bookings in Arrival/Inhouse/Departure plans. *The way it works : If there is a table booking with table number, you will see that table number. If there are more table bookings on the reservation, or if the table booking does not have a table number, an icon appears instead.*

**29** On + Products, packages with different arrivals can now be selected for every period, or is set up to to see all periods as a stay.

**30** Picasso Digital can now by itself create room reservations from CSV files with name and arrival dates.

**31** Namelist can be imported from Excel.

**32** You can now make a setup in Hotel Setup, that says, that if you reserve a hall type, you must also register a hall number.

- 33** On room Arrival and Inhouse plans you can now see all restaurant tables with times and SplitBill.
- 34** You can use MultiChange on project codes on reservations.
- 35** Product reservations, that are booked same day, are checked in automatically.

- 39** Arrival plan: Member icon is shown for BWH members.
- 40** Todo can show staff from optional department/s.
- 41** New Deposit prepayment feature at creation of reservation depending on Product.

- 36** You can now edit voucher numbers on Out of house reservations on departure day.
- 37** Price calculations for rooms on Namelists are updated.
- 38** Res. Type: Dayroom can be used for other things than dayroom.

Multi-Change Reservations

**Multi-Change**

Guest Type: <input type="text"/>		Purpose: <input type="text"/>	Res. Type: <input type="text"/>

- 13095 Akvaremesse 2023

### Soon:

- You will soon be able to use GetAccept to send conference confirmations and get a receipt. The status of the reservation changes.

### Next version:

New scalable reception module.

## Management:

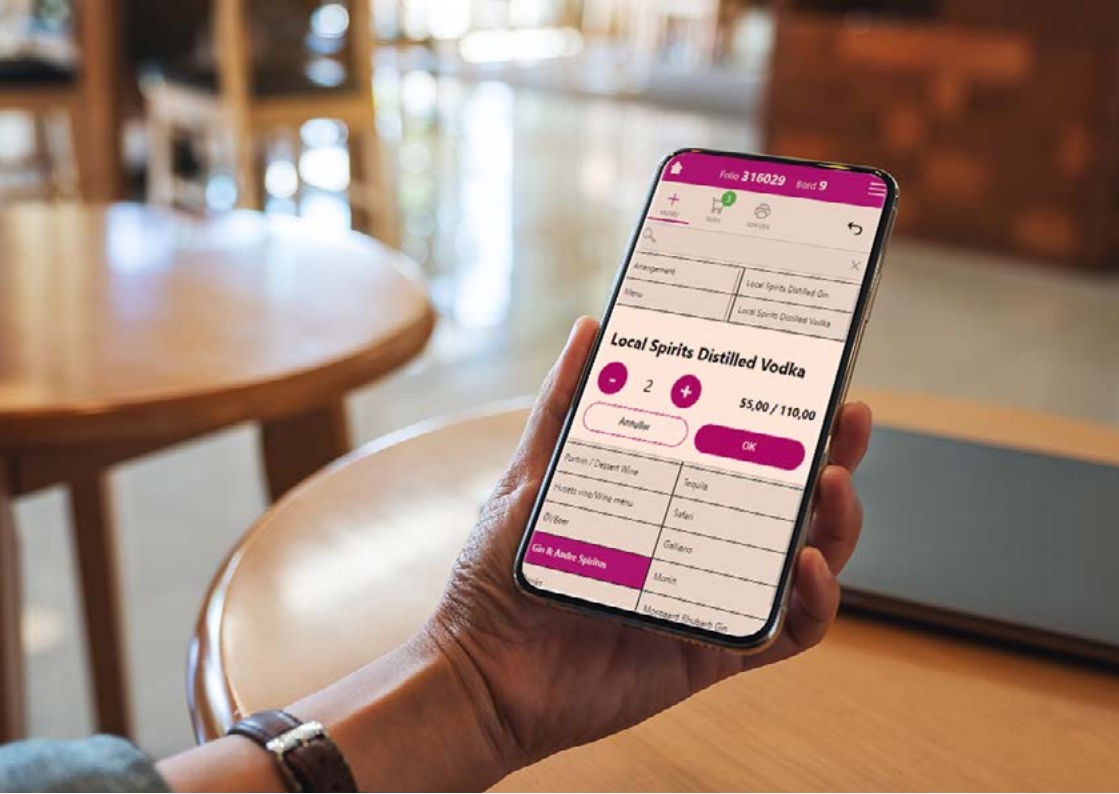

- 42** Setup of new easy and safe login and password routine: Login with 13 characters in password.
- 43** 2-8 hours where you only need to use a 4 digit pin code to login.
- 44** Staff switch passwords after 3 months at login.
- 45** 2-factor login option.
- 46** Control of advanced passwords is possible.
- 47** More rules to 'ware link group' to product and Spa booking.
- 48** You can use MultiChange for wares in Management.

## Marketing:

- 49** MIS: Historic data period is selected via dropdown. Able to compare 3 year prior.
- 50** MIS: Choose which weekdays you want to view. IBAN + BIC on Sales Channel.
- 51** MIS: You can now include Allotment in MIS. Deployed and booked allotment is now counted in MIS.
- 52** MIS: Changes name to: Marketing Information Dashboard.
- 53** MIS: Setup about discount must be added to customer account or discount account.
- 54** MIS: Discounts can be included.
- 55** MIS: You are now able to compare statistics 3 years back.

(marketing continued)

**56** MIS has changed, so discount (which is located in the product group Commission in position 10) can be included in MIS under the correct MIS type (Rooms, Halls, Day meetings, Restaurant or Other)

*If a discount is posted for a room posted as the type "Room" or "Manual Room", the discount will fall under the MIS type "Room".*

*In the same manner, if a discount is posted for a ware, e.g wine, of the type "Ware" and MIS type "Restaurant", the discount will be included under the MIS type "Restaurant".*

**57** MIS allows +Products to have Packages as total period.

**58** You can insert IBAN + BIC fields in Marketing.

## Cashier:

**59** BIG NEWS: Picasso Mobile POS ver. 0.1 is ready. Save time by taking orders at the table in the restaurant.

**60** New fields on the table plan VIEW.

**61** Appetite and UNTILL receipts are now able to be automatically attached to the main conference bill.

**62** Cashier can be set up to only use pin codes with 4-5 digits.

**63** Before and/or after arrival the guest can order food in the restaurant via their mobile phone on Guestshopper.

**64** Faster printing of invoice to email, print and reprint.

**65** Change of Cash register colors on Waregroups: Use colors from Hotel setup -> Types -> Color.

**66** Table overview in The checkout can now show Seating ID, so the table overview can sort by Seating. The ID must match arrival time.

- 67** Table reservation can now be sold in Package or as additional, which reduces table vacancy in Cashier.
- 68** New MySearch report on invoice the button with invoice amount on the overview.
- 69** MySearch for customers and reservations.
- 70** Turnover report can now be sorted by most sold product

- 71** Invoices: The checkout now have buttons to show Guest shopper folios and product reservations on invoice overviews.
- 72** You now have the option to set display of various notes on the Table plan in Hotelsetup.
- 73** Guest shopper is now being developed to Appetite Mobile POS.
- 74** Report over credit notes.

## Reports:

- 75** here is a new report in Stat. Pro: MIS monthly report.
- 76** There are new Safety reports.
- 77** Save time by only reading selected event reports. Eg. Only read reports with changes.
- 78** New/Changed report: Search + display on products.
- 79** New GDPR report of reservations numbers.
- 80** Reports in optional format. See Room spec. reports.
- 81** On Arrival/Time report you now can display optional Table setup note.
- 82** You can have POS on Hall spec. reports.
- 83** New Clean report (Day, Room type Stay/Departure/Total)

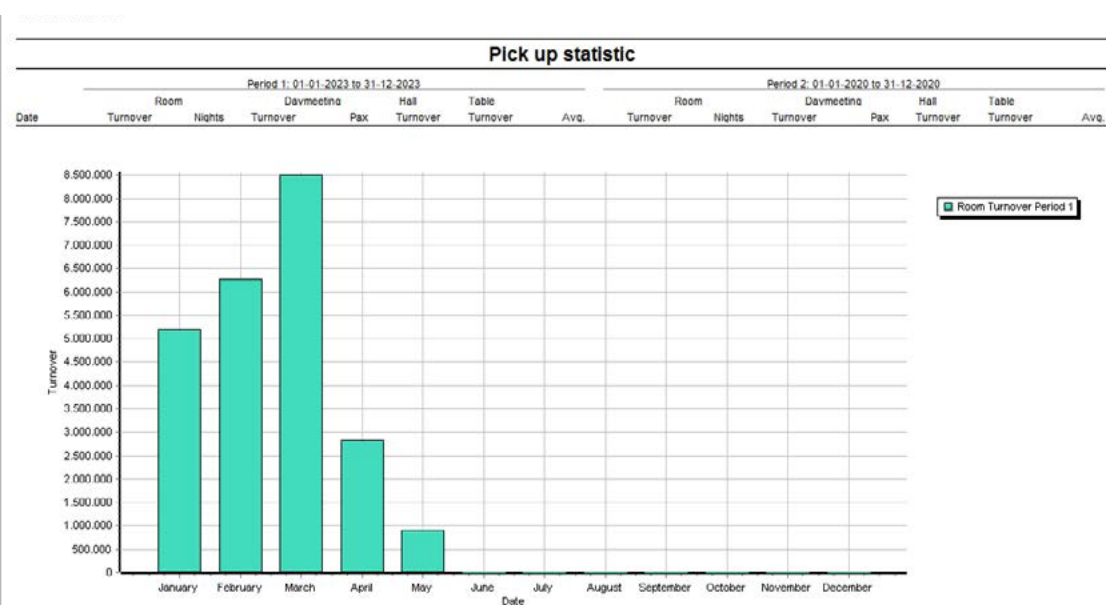

- 84** You can sort by promotional codes when printing labels in reports.
- 85** New Stat. Pro. > Pickup report with graphical design.
- 86** New Pickup report with turnover from all wares.
- 87** Waregroup Hour report now shows menu ware content, instead of menu name.
- 88** Digital Report with rooms. There is either Arrival, Inhouse or Departure.
- 89** Rooms reports can be sorted by Room name.
- 90** You can view ware reservations on Reports – Arr. time.
- 91** Lead hour report on weekdays.
- 92** Halls arrivals report now also displays year on the date field.

**Mona:**

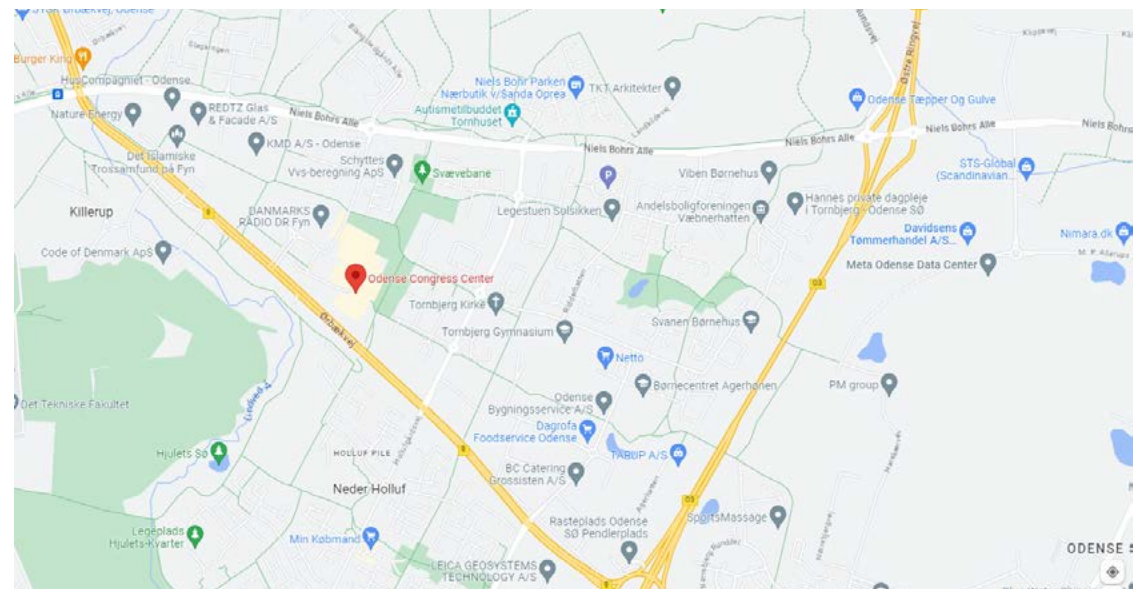

- 93** Mona can send welcome + departure email with text and graphics inside mail body, x number of days before arrival and x number days after departure. The email is sent as Word template directly inside mail body.
- 94** Guest shopper.
- 95** It is possible to have a tablet placed in the reception area connected to your workplace. On the tablet the guest can update reg. card with name, email, mobile phone no. The reg. Card automatically updates the reservation in Picaso Digital. The Reg. card is saved digitally. The guest is also able to read and approve terms of trade.
- 96** The guest could be lying on their bed or sitting in the restaurant. At e.g. 8.30 a.m. Mona sends SMS “It is time to check out. please use this link. Click here...”

*(mona continued)*

- 97** You able to now set up houses/rooms with Google Maps addresses and coordinates and use Google Maps in arrival SMS.
- 98** You can exclude certain room numbers from running auto-check-in and kiosk check-in.
- 99** New solution asks for prepayment before the guest arrives
- 100** Payment by SMS or QR code..
- 101** Mona can now send the guest an URL for viewing and updating of the registration card as well as ordering of restaurant items through Digital Guest Book.
- 102** When using pin code key systems Mona can ensure the guest always has the same key code, regardless of which room number they get in the future.
- 103** Mona can send a reminder about prepayment.
- 104** Mona can now use Check-in App for Assa Abloy, Visionline, Tesa and Salto.
- 105** Mona Kiosk is now available in English, Danish, Norwegian, Swedish and German.
- 106** Mona Kiosk is now also available in a conference version. Search reservation with company + guest name or with reservation number.
- 107** Mona Kiosk: You can now buy and print breakfast voucher from the Kiosk.
- 108** Mona Kiosk: Can now transfer payment link to QR codes, email or SMS.
- 109** Mona Kiosk: The guest can now enter their own mobile phone number and receive the invoice on SMS.
- 110** Kiosk link/button to ONL23.
