Dear Picasso Digital User,

Many of our users have already seen the benefit of incorporating Picasso Digital's RateBook into their daily work routine.

RateBook provides a better overview of both prices and availability, saving time for the user every day. But did you know that RateBook can also boost your bottom line by selling rooms online without commission?

RateBook now has 2 online booking channels for commission-free room sales

RateBook gives you the best opportunity to boost your bottom line with

two commission-free channels: the hotel's own online booking (ONL24) and Google Free Booking Links.

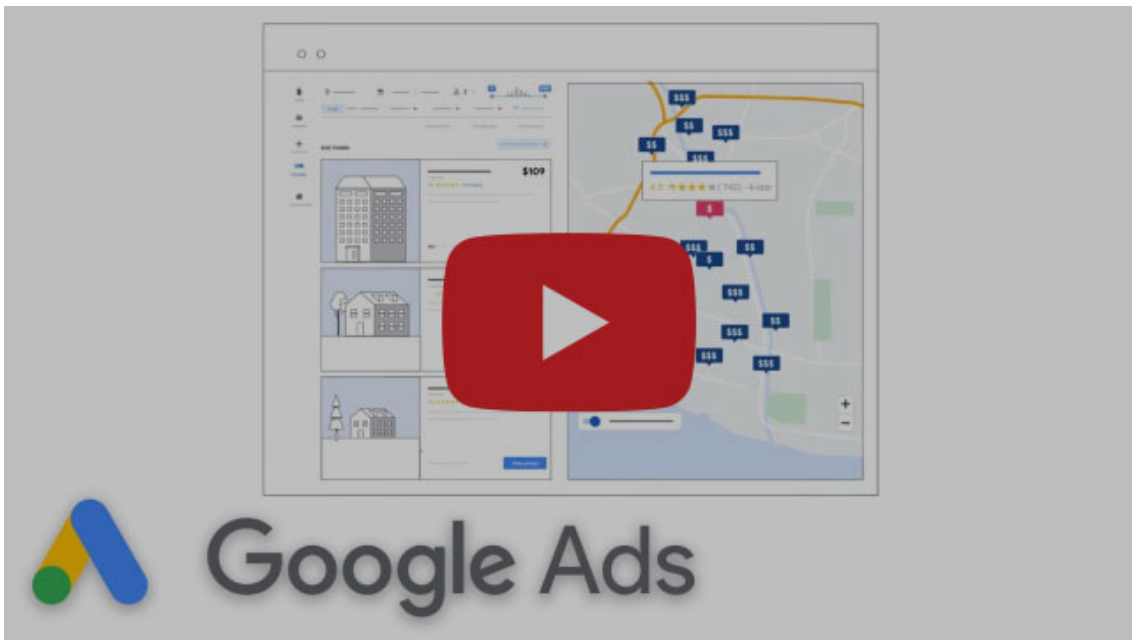

Add - Featured options		
Hotels.com	€ 73	Visit site
Expedia	€ 73	Visit site
Agoda	€ 73	Visit site

With the new EU regulations, hotels are also allowed to undercut the channels, and with Google Free Booking Links, this becomes even more apparent to guests searching for rooms online.
