

Save time every day!

Use Picasso Digital's features to save time on daily routines

Hotel

19/09/24

Dear Picasso Digital User

Time is money – in the hotel industry, as in many other sectors.

In our modern, digital world, it's only natural to use technology to optimize workflows and guest services to save time – and ultimately, money.

- We can help you with that!

Save time with Guest shopper and QR codes - in the restaurant and other hotel areas

Do you want to offer your guests a quick and easy way to order and pay for food and drinks (or any other services) without having to wait for service? With Picasso Digital's Guest Shopper and a QR code, you can do just that.

The guest simply scans the QR code with their mobile phone, which opens Guest Shopper, allowing them to handle both ordering and payment themselves. The QR code can even be configured to open specific campaigns, product groups, or items, giving you full control over what is displayed and when.

It can be used in the restaurant as a quick ordering option for guests who don't want to wait for a server, or as a complete alternative to personal service.

Try it your self!

It can also be used in other areas than the restaurant – such as the spa or other leisure areas, where service is not immediately accessible. This way, there is always a service option available, creating opportunities for upselling.

Reduce the pressure on staff and provide the guest with a smooth and efficient self-service experience.

12

Picasso Digital Version 12 is on the way

Version 12 is coming up with approx. 225 new features to improve:

- Your work day! - Your earnings! - Your efficiency!

We are in the process of creating a description of the new functions in Version 12. When this is finished, we invite all our customers to a webinar. Keep an eye out on the newsletter.

Welcome Niels Bonkegaard

We are happy to welcome Niels Bonkegaard to our team.

Niels joined AK Techotel this August as Account manager and will be training our customers in using Picasso Digital in general - and RateBook in particular across Europe.

Niels has an impressive background in the hotel industry - first as revenue manager at First Hotel and later as hotel director for Hotel Phønix, GUESTapart and most recently for the up and coming event center [Fun Art Blokhuis](#). We look forward to both us and our customers benefiting from Niels' broad experience.

Contact Niels: nbo@techotel.dk

Get 1 hour free training in RateBook!

We want to show you how to utilise the new RateBook features to optimise your sales and profits.

Contact Niels Bonkegaard and book 1 hour of free training in RateBook.

More new Version 12 features in Picasso Mobile POS

The Picasso Mobile POS is a hand-held device that saves time by allowing staff to serve the guest where they are, instead of taking notes with the guest and then going back to the register to enter the order or payment.

In connection with the launch of Picasso Digital Version 12 Picasso Mobile POS has added several new features.

- POS now handles splitbills of table, room and conference bills.
- Integration to credit cards via Softpay
- Significantly cheaper acquiring agreements via Evalon

I would like to know more about Mobile POS

That was all for now. We wish you a lovely day
Kind regards
