PICASSO DIGITAL NEWSLETTER

20th of August 2026

Techotel A/S

Dear Picasso user

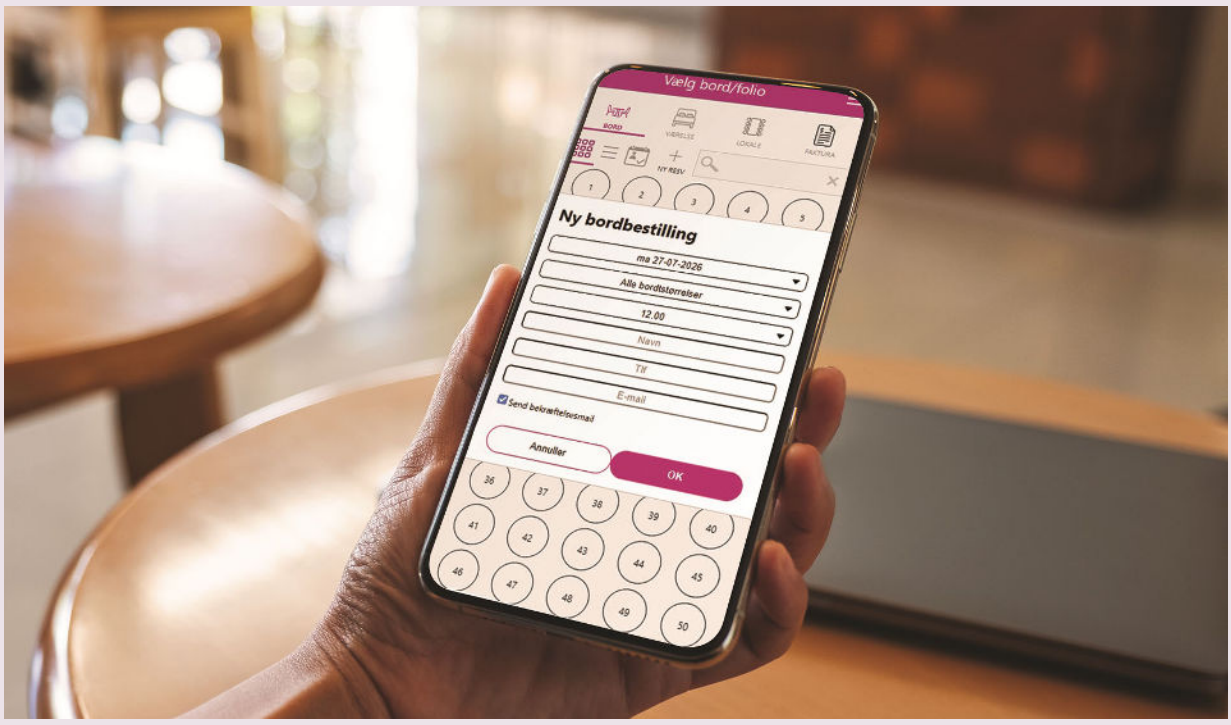
We hope you're enjoying the summer and that your restaurant is full.

We have news from Picasso MPOS, new features in ONL26, and there's still time to take advantage of our special offer on our gift card solution.

New features in MPOS

Manage table bookings directly in MPOS

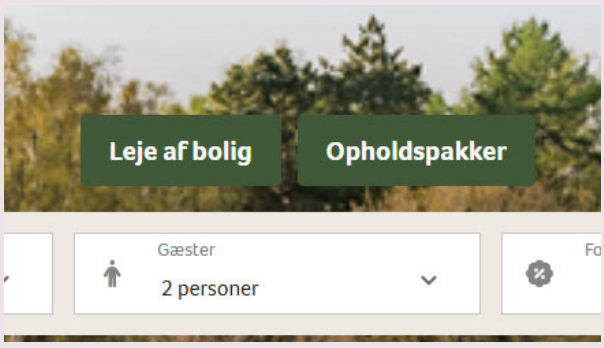
We've added a range of useful new features to **Picasso MPOS**, designed to make everyday work in restaurants, cafés and bars easier and more efficient.
Table bookings, table plans, linked tables, card refunds and much more are now part of the solution.



Read more about the new MPOS features

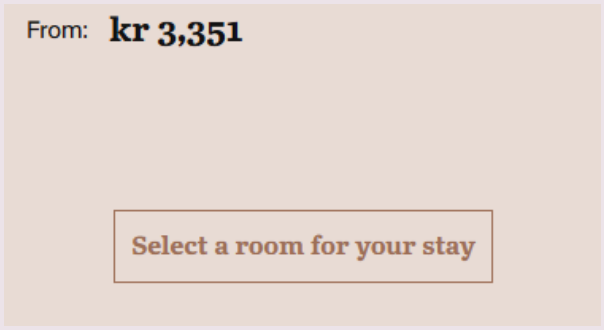
For ONL26 users

New online booking features are now available



Hero image menu buttons

In addition to the top menu, you can now display selected menu items directly on the big top graphic on your booking page (hero image), just above the search bar. You decide which menu items you want to show.



Separate product and rooms on mobile

To reduce the amount of scrolling for guests while booking their your phone, you can now split the selection process into two steps. With this setting enabled, a button is displayed below each product, allowing the guest to view the rooms available for that particular product.

Contact us if you would like to try one of the new online features.

Do you have the old online voucher module?

Then you still have the opportunity to upgrade for free

We have developed a new gift card system that we believe all our customers can benefit from. For a limited time, customers using our previous gift card solution can upgrade to the new system at no additional cost for the new module.
Charges will apply for the time spent on design and setup only.
